# REPORT

Founder & CEO at Omate

Great time in Macao for BEYOND Expo it's actually my favorite tech conference and I already told that last year so it's double confirmed after this edition. They gather tech startups and scale-ups with over 500 investors both VCs and LPs + media representatives into the Venetian exhibition halls with good conferences and talks and finally throw parties every night into different casinos for an even better networking experience.

Attending the **BEYOND Expo** in Macao was an incredible experience. This event is Asia's leading annual expo showcasing the latest technologies and trends

**DANIELLE HARATSIS**  
Senior Adviser of Austrade

Attending the BEYOND Expo in Macao was an incredible experience. This event is Asia's leading annual expo showcasing the latest technologies and trends across multiple industries.

My first lesson was that if you want to be a successful restaurateur, you must know your ingredients and spices, you will never know how well your food tastes until you have tried it. But once we have decided what the end goal is and your strategy that, if you can't get a restaurant quality gourmet meal or do you feed a large group of people, and make sure your tummies are filled, quality is ultimately important, but you will have to put in place the right infrastructure and discipline to rise up and create the quality product that will help you produce more profit.

Enjoyed speaking at the Beyond Expo in Macao and dive into some of the challenges in doing #corporateinnovation and how to unlock value from the programmes we run.

the Hong Kong Science and Technology Development Fund, UK and Singaporean funding agencies are providing financial assistance to the following activities:

- Co-hosting with our partner Department for Business and Trade a new working lunch session to engage 50+ tech companies and representatives of UK and Greater China.
- Inviting Popo Ip, an award-winning life science expert conducted a investment round table with companies and partners, also joined by show London contributes to the collaboration and partners around the world.
- Appointing a Representative Greater China at London & Partners

Personnel really enjoy the space in Dutchch Summit, sharing his

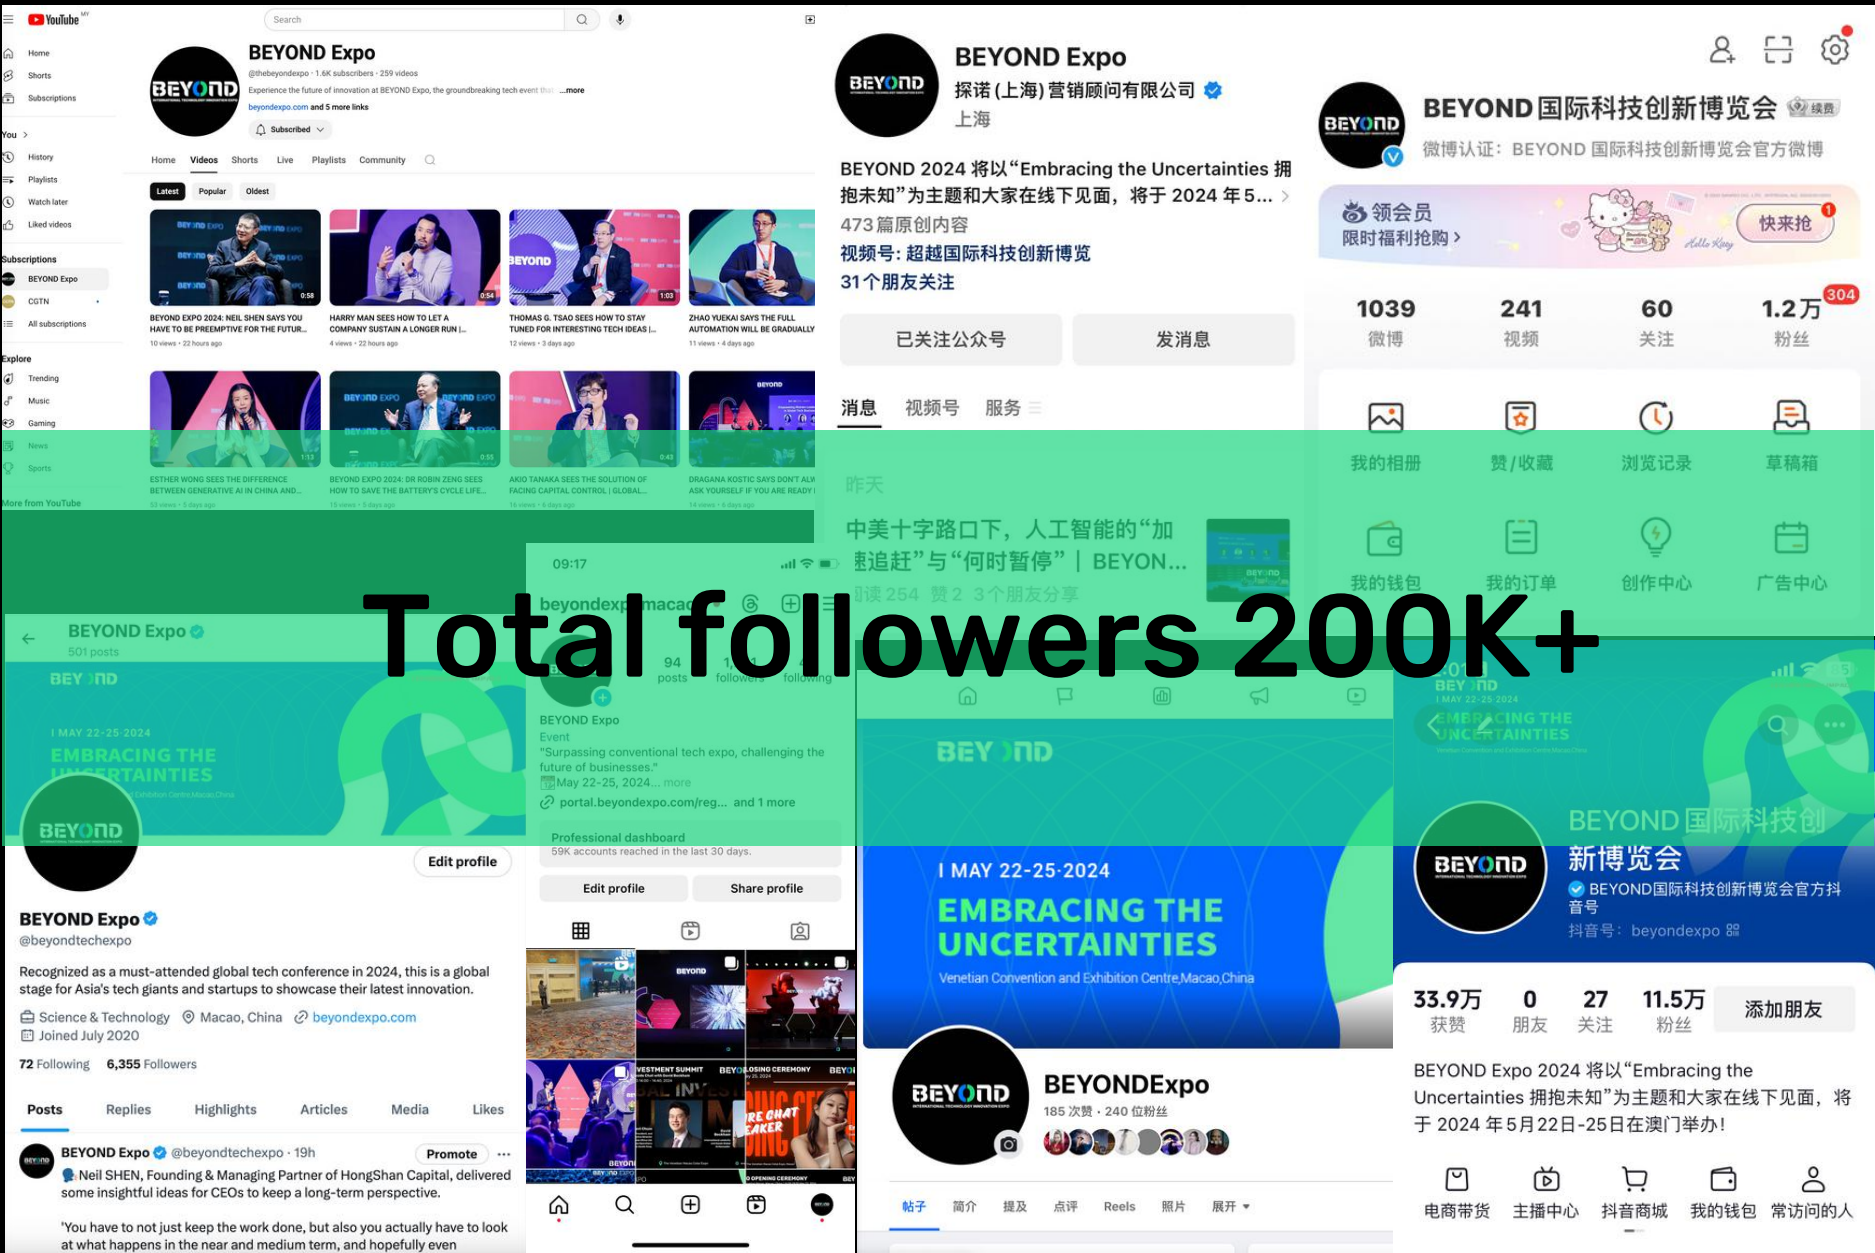

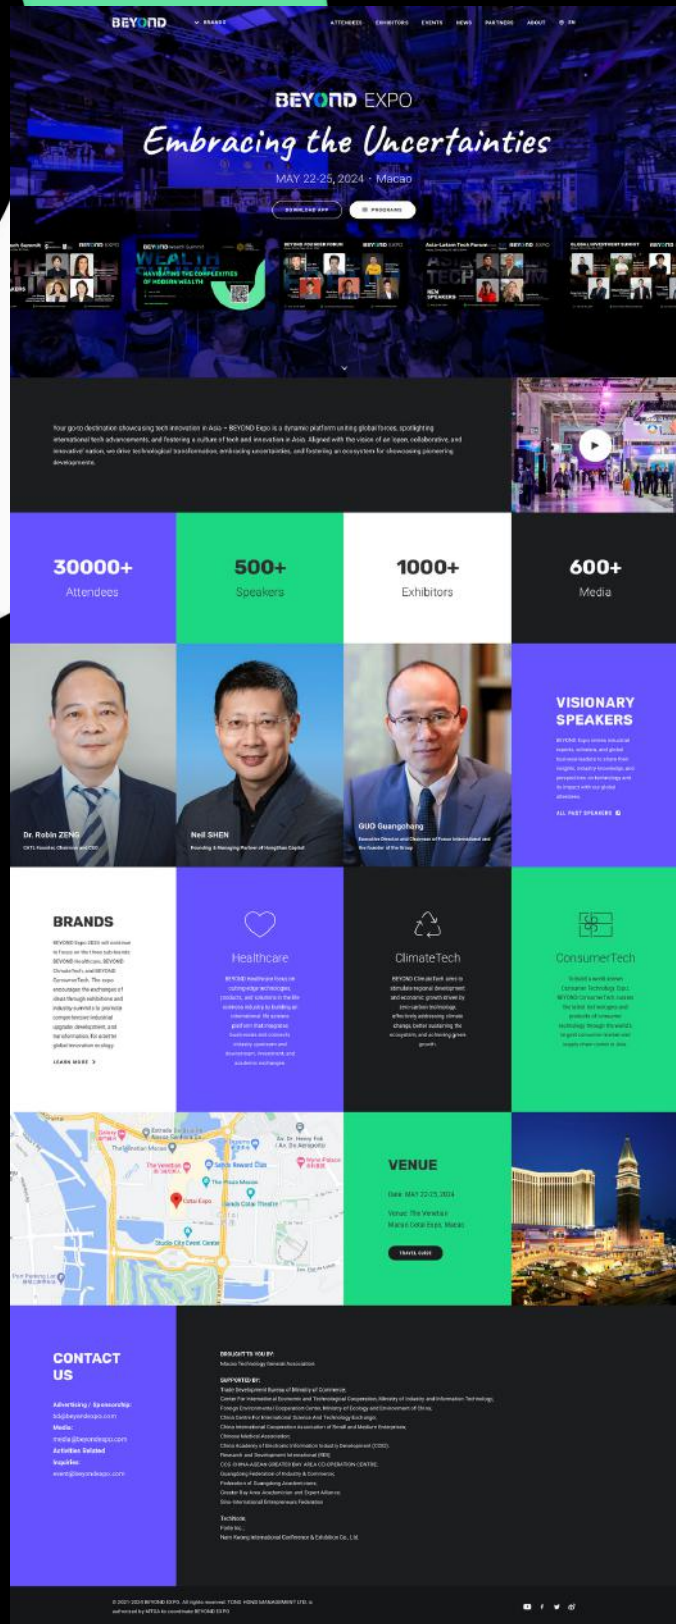

This marks the 4th year that London & Partners joined BEYOND Expo in Macao! We had a range of diversified activities to promote London and the UK at one of the most influential tech events in the Greater Bay Area.
